# Safety collaboration towards 2025

Our goal is for everyone to return home safe. Through strengthened safety leadership, collaboration, closed loop learning and setting of common targets we will, as One Team, commit to radically improve safety in Drilling and Well (D&W) operations.

Our top priorities:

1. No well control/well integrity incidents
2. No people in the line of fire
3. No hand and finger injuries
4. Always compliant and no security breaches

Will be achieved by:

1. Full compliance to Life Saving Rules and D&W Safety Standard
2. Proactive observations and frequent check and act
3. Focused learning in accordance with the Annual Safety Wheel

Life Saving Rules
